Cleated backing.

COMBI TILE ECO absorbent mat

COMBI TILE ECO is a PVC-free strong, durable and buildable combination mat with a recycled PET surface layer. The deep pressed pattern efficiently collects dirt and moisture. You can easily build your own mat in the size you want, it is easy to cut the tiles to the exact dimensions. COMBI TILE ECO is intended for placement in a floor drain or in combination with a profile ramp directly on the floor. The tiles do not need to be glued, making it easy to lift individual tiles for cleaning or replacement.

Environment:	<i>For indoor use. High traffic.</i>
Property:	<i>Good absorption and scraping ability. Non-slip.</i>
Material:	<i>Top PET, made from at least 90% recycled content. Cleated backing in SBR rubber, of which 20% recycled rubber.</i>
Thickness:	<i>9,3 mm</i>
Care:	<i>Daily cleaning by vacuuming. Regular washing with a textile care machine.</i>
Other:	<i>Placed in a floor drain or combined with a 10 mm profile ramp when placed directly on the floor.</i>
Guarantee:	<i>2 year</i>
